

# ABC F1 Double Lisianthus gives you high yields of grade-A cuts

ABC lets you  
produce a  
high-quality  
finished crop in  
a comprehensive  
colour range using  
just one series.

ABC 2-2 Purple Double-Flowered Lisianthus

PanAmerican Seed™

**DOUBLE-FLOWERED**

**LISIANTHUS**   
*Eustoma grandiflorum*

**ABC F1 Series**

**Location:** Greenhouse, shade house  
**Stem length:** 36 to 45 in./90 cm to 1.1 m in the greenhouse  
**Supplied as easy-to-sow pelleted seed with 80% minimum germination standard.**

Less rosetting sensitivity than the competition in both the plug and finish stages of ABC increases the number of saleable plants and stems, and reduces or eliminates the need for gibberellic acid (GA) spraying. Uniform vigour in both the plug and finish stages and 1 to 2 weeks faster finish time assure a short harvest window. ABC blooms uniformly within the colour, displaying outstanding double flower form with high petal counts on strong stems with exceptional vase life. Allow approximately 16 weeks from transplant to harvest for early-season transplants and approximately 13 weeks for mid to late-season transplants. ABC lets professional growers produce double-flowering lisianthus on a year-round basis.

**ABC Lisianthus Seasonality Number Guide**

The first number, "Speed Guide," tells whether the variety is faster or slower to flower. The second number, "Versatility Guide," indicates whether the variety can be grown over a longer or shorter flowering period.
