Multi-Seeded Gift Plant

Wizard Coleus, Splash Select Hypoestes and Glow Celosia can be directly sown with 8 to 10 seeds into 4-in. (10-cm) pots for quick-finishing indoor gift plants. Growth regulators are not needed, and plants will hold well for 2 to 3 weeks in the greenhouse for sales over an extended period. Plants will look good 3 weeks or longer in indoor conditions.

Crop times: Wizard Coleus – 5 to 8 weeks, Splash Select Hypoestes – 5 to 8 weeks, Glow Celosia – 11 to 12 weeks.
